

Telephonic Appearances

Appearances by telephone are permitted under the following circumstances:

- Preliminary hearings and status and scheduling conferences as set forth in the hearing notices
- Reaffirmation agreement hearings as set forth in the hearing notices
- Other hearings if indicated in the notice or by permission from chambers

You can access the Courtroom conference bridge by dialing **720-904-7499**. The User ID is usually **1128** (occasionally we use 1130 - check your hearing notice). If you are having difficulty accessing the conference line you might try using a different phone. Some phone systems have problems accessing the bridge. It is acceptable to use a cellular telephone - however, if you have issues with dropped calls, you may want to use a land line. Your call is transmitted over the speakers in the courtroom, so when you are waiting for your appearance, you may want to use the mute button. If not, **please be aware that everyone in the Courtroom can hear you.**
